

Information Literacy Skills Development

Our team provides training to help students develop the skills necessary to locate, evaluate, and use information effectively. We have also created a self-paced independent Moodle course called “Basic Information Literacy”.

Research Oversight Work

We promote a culture of excellence in research and scholarly inquiry at GIHE by working closely with faculty and students and provide guidance to ensure that research conducted at our institution meets the highest standards of academic integrity and ethical conduct.

New Joiners' Induction and Support

Our team provides onboarding support for new faculty and visiting lecturers (VLs), and helps new students become familiar with our library resources through induction programs, and on-demand individual sessions.

We hope this brochure provides helpful insight into the resources and services we provide.

Our goal is to ensure that our students and faculty have access to the resources, knowledge, and skills they need to succeed academically and in their future professional life.

We look forward to supporting your academic journey at GIHE!

Library & Information Services

GLION INSTITUTE OF HIGHER EDUCATION

Our LIS is a **hub of academic resources and support services**, designed to help our students and faculty succeed in their studies and research. We offer a wide range of resources and services, including academic and professional databases, a physical collection of over 5000 regularly updated books, eTextbooks for courses, learning support, and information literacy skills development.

For those who prefer in-person services, our library is open from **08h30 to 17h00 on weekdays**. Our team of two experienced librarians is always available to assist you with any queries you may have or to provide guidance on how to make the most of our resources. We also work closely with the Senior Learning Support Manager to ensure that we provide **coordinated and effective support to our students and faculty across all aspects of academic life**.

We invite you to explore all that our LIS department has to offer, and we look forward to supporting you on your academic journey!

library.glion.edu

The LIS website

This is the main entry point to access all these resources. It provides easy access to a wealth of resources, including databases and online resources that support research and learning across a wide range of disciplines.

Our Learning Support section offers a variety of resources to help students develop essential academic skills.

Our Health & Wellbeing section provides resources on mental health, physical health, social health, and other topics relevant to the Glion community.

For curious users, we also provide information about the history of the campus regions (Gruyère and Vaud), as well as a blog with general news, library and learning support and APA tips.

UNITED
WE
Learn

Resources

Our library provides access to a wide range of resources, including:

+5'000 curated books	+540'000 eBooks	+15'000 newspapers and magazines	+218'000 academic journals in full text
----------------------	-----------------	----------------------------------	---

We also provide support for the course reading lists to ensure that students have access to the resources they need for their studies.

eTextbooks

They are convenient and can be accessed from anywhere at any time, making it easier for students to study and prepare for their classes.

Student Portal

The Student Portal serves as an essential platform for students to access a range of information resources, including course materials, timetables, and important announcements. The LIS plays a crucial role in managing the Student Portal in order to provide an efficient and effective platform that supports our students' academic success.

Students' and Learning Support

Our team provides learning support to help students develop the skills necessary to succeed in their studies. We are available to help students with their research for assignments, providing guidance on research methods, and supporting the development of their digital and information literacy skills.

Curriculum design

We play an integral role in supporting the curriculum design for BBA and MSc courses at GIHE. We work closely with faculty to ensure that course materials are up-to-date and that students have access to the resources they need to succeed in their studies.
